## Things you should know

### California Climate Credit Rollover Information

Your electricity bill for this month may reflect a credit amount. This may be due in part to the California Climate Credit included in the "Delivery charges" section of your April 2025 electricity bill.

### Fixed Recovery Charge

SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires. Your bill for electric service includes a Fixed Recovery Charge that has been approved by the CPUC to repay those bonds. The right to recover the Fixed Recovery Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to SCE. SCE is collecting the Fixed Recovery Charge on behalf of the Special Purpose Entity.

### Stay in Control

If you're behind on payments, enrolled in a payment plan, or facing disconnection, we offer options and energy management solutions to help you stay in control of your bill and costs. Learn more at [www.sce.com/billsupport](http://www.sce.com/billsupport).

## NOTICE OF APPLICATION

### Southern California Edison Company's Request to Increase Electric Rates

### APPLICATION 25-04-021

#### Why am I receiving this notice?

On April 30, 2025, Southern California Edison Company (SCE) filed an application with the California Public Utilities Commission (CPUC), proposing to finance up to \$1.627 billion in recovery bonds for approved claims costs related to the 2017 Thomas Fire and 2018 Montecito Debris Flow (Application 25-04-021). SCE intends to recover this amount in electric rates over a 35-year period, beginning in late 2025. This will increase your monthly bill.

#### Why is SCE requesting this rate decrease?

Senate Bill (SB) 901, which was signed into law on September 21, 2018, provides the CPUC with authorization to permit recovery, including through issuance of recovery bonds, of 2017 catastrophic wildfire costs and expenses, including for costs related to the 2017 Thomas Fire and 2018 Montecito Debris Flow.

The CPUC has already found that SCE is allowed to recover some of the claims costs that it incurred related to the 2017 Thomas Fire and 2018 Montecito Debris Flow. With this application, SCE is seeking to finance those approved claims costs through the issuance of recovery bonds over 35 years. If the CPUC approves this application and allows SCE to finance these approved claims costs with recovery bonds, it will result in a lower rate increase to customers, when compared to traditional utility financing.

#### How could this affect my monthly electric rates?

If SCE's proposed rate increase is approved, an average residential electric customer using 500 kWh per month would see a bill increase of \$1.10 per month (0.6%), from \$36.72 to \$36.94. CARE customers will not see an increase in rates.

**Proposed Electric Rate Increase With Financing**

<b>Bundled Average Rates (¢/kWh)</b>

<b>System</b>		<b>27.09</b>	<b>0.14</b>	<b>27.24</b>	<b>0.5%</b>

<sup>1</sup>The electric rate increase described in this notice assumes that the CPUC approves SCE's request to finance its approved claims costs over a 35-year period. If a shorter period is approved instead, the electric rate increase may be higher.

#### How does the rest of the process work?

The application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt, modify, or deny SCE's application. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

#### Contact the CPUC

Parties to the proceeding may review the application, including the Public Advocates Office which is an independent consumer advocate within the CPUC that represents customers in order to obtain the lowest possible rate for service consistent with reliable and safe service levels. ## NOTICE OF APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY TO DECREASE ELECTRIC RATES APPLICATION A.25-05-008

### Why am I receiving this notice?

On May 15, 2025, Southern California Edison Company (SCE) filed its application with the California Public Utilities Commission (CPUC) requesting review and approval of its 2026 Energy Resource Recovery Account (ERRA) Forecast Application (ERRA Forecast Application or Application). SCE's proposed ERRA Forecast revenue for 2026 is \$4.385 billion. This is a decrease of \$75.555 million as compared to SCE's 2025 ERRA Forecast revenue.

### Why is SCE requesting this rate increase?

- Estimated costs for fuel and power in 2026 are projected to be lower than what SCE estimated for 2025.
- The Application also requests approval of other expenses recoverable in ERRA Forecast proceedings, such as expenses related to spent nuclear fuel (stored nuclear fuel that has already been used); and SCE's return of \$528.071 million in Greenhouse Gas (GHG) allowance revenues to eligible customers in 2026.

### How could this affect my monthly electric rates?

If SCE's rate request is approved, the average residential monthly bill using 500 kWh per month would decrease by approximately \$0.87 or 0.5% per month in 2026.

Bundled Average Rates (¢/kWh)				
Customer Group	Current Rates	Proposed Change	Proposed Rates	% Change

Street and Area Lighting	34.7	(0.09)	34.6	-0.3%
Standby	15.7	(0.20)	15.5	-1.3%
<b>Total</b>	<b>26.0</b>	<b>(0.17)</b>	<b>25.9</b>	<b>-0.6%</b>
Residential Bill Impact (\$/Month)				
Description	Current	Proposed Change	Proposed	% Change
Non-CARE residential bill	\$174.78	(\$0.87)	\$173.90	-0.5%
CARE residential bill	\$109.92	(\$0.55)	\$109.37	-0.5%

This Application and the projected rate decrease described in this notice is a forecast and is likely to change prior to including these costs in SCE's 2026 rates. SCE will update this Application in October 2025, so that the latest forecast assumptions can be incorporated.

### How does the rest of the process work?

The Application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review SCE's application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels.
